How do these targets link to our Christian vision?

Let us remember that as many hands build a house, so many hearts make a school. We live the Vine Vision and Values; it threads throughout the whole Curriculum. The Art Curriculum taught at The Vine is inclusive, it gives opportunities to celebrate talents, share skills, build resilience and learn collaboratively, creatively and responsibly. The cross curricular nature of the Art Curriculum allows Pupils and staff opportunity to reflect on our Christian faith and other beliefs, develop an awareness and respect for diversity and an understanding of the social, moral and ethical implications that impact our world. Due to its cross curricular nature it helps develop an appreciation of the wider world and its culture, music, design, artists, designers, craftspeople, film makers, writers and architects and we celebrate this.
